

## VOTES

### House - 2026 Legislative Session

**House Bill 1234 Committee Substitute (as amended)** – Creates new school accountability “dashboards” on which public schools would be required to publish detailed financial and academic data, adding new layers of accountability to public schools even as publicly-funded private schools are protected from public scrutiny or accountability of any kind. Financial dashboard reporting required of public schools would include monthly reports of individual line-item expenditures by date, purpose, and vendor; contracts by vendor, purpose, and payment; monthly revenue data by fund and source; aggregate staff and personnel expenditures; and more. Academic dashboard reporting required of public schools would include, in addition to school and district letter grades: grades 3 and 8 reading and math proficiency and growth; truancy and absenteeism rates; dropout rates; graduation rates; student-to-teacher ratios; college-, career-, and workforce-readiness metrics; college placement rates; job placement rates; military placement rates; average ACT and ACT WorkKeys scores; special class offerings; college/career-readiness index scores; number of teachers with advanced degrees or certifications; number of teachers with industry experience; teacher turnover rates; and number of long-term substitute teachers. Mandates that a school district’s funding be withheld for failure to timely report; noncompliance shall result in accreditation violation.

***The Parents’ Campaign favors a vote of nay on this bill***
