

VOTES

House - 2026 Legislative Session

Senate Bill 2294 Conference Report – Literacy and Math Initiatives. Establishes an adolescent literacy program for grades 4-8 with remediation and supports for students with reading deficiencies (does not include an 8th-grade reading gate), to be implemented in all public school districts; a Moving Mathematics in Mississippi (M3) program for participating school districts; and other provisions and new requirements for public school districts related to computer science, financial literacy, and civics instruction.

The Parents' Campaign favors a vote of yea on the conference report but is concerned that a \$9-million appropriation for the literacy program would be insufficient, creating an unfunded mandate for school districts which are required to hire an interventionist in every school that includes a grade from 4-8.

Passed 4/1/2026. Yeas: 121, Nays: 0, Absent: 1, Present/Not Voting: 0
